Subject: Privatizing some services of DMV

It is well-documented that state employees of CT are amongst the best paid in the US and that their total compensation is significantly higher than private compensation in the state. State taxes in CT are also amongst the highest. CT is running a significant deficit.

It is about time we rein in spending as best we can by privatizing where possible. If allowing AAA to do some of the servicing done by DMV alleviates spending, we should do so. It is important to the fiscal health of our state, particularly since so many individual and corporate taxpayers are leaving...
